Follow up to December 6th meeting:

- Water quality treatment trade areas is covered in the 1998 KCSWDM Section 1.2.8.2, p. 1-57 and 2005 KCSWDM Section 1.2.8.2 item C, p. 1-67

- Based on Wood Trails figure 2.1-2 provided in the EIS, it appears that the offsite road runoff from NE 198th Street, NE 201st Street, and NE 202nd Street are collected by the Wood Trails storm system, but in the Wood Trails Drainage Deviation Request, Appendix F it appears that that the offsite road runoff from NE 198th Street, and NE 201st Street are collected by the Wood Trails storm system. This will need to be clarified.

- DEC04009 (re: Wood Trails Road Width): Public Works could not support this deviation. Applicant has not demonstrated that the construction of the road will impact the environment or is constrained by the topography, and parking would be limited.

Please let me know if you have any questions.

Thanks, Yosh
Cindy Baker

Hi Cindy,

Can you please answer Susan Huso question?

Thank you,

Jennifer Kuhn

Subject: didn't receive official letters

Jennifer,

I'm wondering why I didn't receive letters of notice regarding the Hearing Examiner Meetings (the ones originally scheduled for 2/28 and 3/1), specifically on the Montevallo development. I live right next door (although outside city limits) to Montavello, and so I clearly would be within the 500 feet parameter. I should be a party of record, I know Phoenix Development sent me a letter years ago advising of the start of the development process.

My physical address is 24330 75th Ave SE, my mailing address is P.O. Box 1176, Woodinville.

Can you look into why I didn't receive them? If your not the person to do that, can you tell me who can help me?

Thank you,

Susan (Todd) Huso

Counsel and Ms. Baker;
The dates on the City's website are different from the ones I set at the last hearing. Mine were April 16th and April 23rd. I am going to change the dates to those on the website, so there won't be any further confusion. It extends each party's deadline by only 3 days, which I find insignificant.
Greg Smith

I am writing to confirm that the deadlines for additional written comment on the Montevallo/Wood Trails proceedings is as stated on the current City of Woodinville website as set forth below:

Wood Trails and Montevallo Preliminary Plat and Rezone Applications

UPDATE 04/11/07: Oral testimony on the Wood Trails and Montevallo rezone and preliminary plat applications has been closed. The Hearing Examiner will accept written comment (only) up to 5 p.m. on April 19, 2007. The applicant (Phoenix Development) may submit by April 26 a rebuttal to any written comments. The Hearing Examiner has ten (10) working days (by May 10) to complete his findings, recommendation and/or decision unless the applicant agrees to allow additional time.

If this information is incorrect please let me know right away.

Rick

RE: Request for Public Records

Ms. Baker,

The Concerned Neighbors of Wellington (CNW) are requesting that a representative of our organization be allowed to attend any meetings between City Staff (yourself) and the applicant (aka Rich Hill and Phoenix). Our involvement would simply be to listen and observe, not to necessarily provide comment.

We are also formally requesting that we receive (via either hard paper copies or forwarded email) any future emails and correspondence between the applicant and City Staff. We are making the request so that we remain in the loop about what issues are being discussed and/or resolved between the City and the applicant prior to the Public Hearings. Please be sure these are forwarded and faxed immediately. In addition to future correspondence, please forward any correspondence that has taken place since the city has issued their staff report on the Wood Trails and Montevello Hearings.

My Contact Information:

Phone: Business Hours: 425-821-1111, Cell: 206-795-0608
Fax: 425-821-3587

As we understand it, the city of Woodinville has a commitment to provide a certain amount of growth according to the GMA. We also believe that it has reached its commitment. Then why would the City government be entertaining the notion of changing the existing zoning from R-1 to R-4 when its tax-paying residents have vehemently opposed it?

We as homeowners pay a high price to live here….High Taxes! We obviously felt it was worth it – many of us have lived here for over 20 years. But, that quality of life has been changing dramatically with the traffic and congestion and now the city plans to increase this? Why not just change our name, too…..to possibly Woodinkent or Woodrenton………?

I also have the following questions:

1. With the approval and construction of the Wine village and the Fairfield Properties apartment site by the WAC have these been included in the GMA totals?

2. Auburn and Redmond have increased their builder impact fees considerably, is this something that has been discussed by the city?

3. To date, the emphasis has been on water run off, drainage, etc. …has there been serious discussion with regards to the impact on the wildlife in this area? I haven’t seen anything presented regarding the wildlife.

4. Any road improvements are long term suggestions – why are they not short term solutions?

From what we have seen in the press and at public meetings it seems that the people who want to change the zoning are either out of state developers or folks planning to retire and reap financial gain after living here for many wonderful years in a country environment with the protection of R-1 zoning. They do not seem to care what they leave behind in regards to the community and environment that they enjoyed.
I have recently read a Woodinville brochure dated from 1995 that states the Planning Board’s purpose is to make sure that “…Woodinville’s unique Northwest woodland character be preserved” Why has the city government lost site of this and why are they not listening to their residents?

We, along with our neighbors, have substantial property holdings and stand to incur a tremendous financial gain by embracing R-4. However, we choose not to jump on the R-4 bandwagon because we would like to see Woodinville maintain its country character, The sole purpose of why we moved here 5 years ago from Seattle.

Sincerely,

[Signature]

-Re: Woodinville Traffic Planning

On Thursday night, April 5, 2007, at the Wood Trails Public hearing, the Woodinville traffic specialist addressed the potential traffic problems associated with rezoning the Wood Trails and Montevallo areas. He first displayed a series of charts depicting the data from traffic sampling along the Woodinville-Duvall Road and 156th Ave. He pointed out that the data was too sparse, contradictory, and much of it out of date, to allow any accurate analysis of traffic growth on these roads and their intersection. He did not address the reason for not having adequate data to make an analysis. Traffic impact on 156th Ave, should be of major importance when considering a zoning change for the area.

In spite of the lack of useful data, he stated that the city’s position is that the traffic growth on these roads will be 2.5% based on the Puget Sound Regional Council’s (PSRC) analysis of growth in this area. The Regional Council’s analysis is based on a study of business and employment projections. However, the PSRC analysis is “growth as usual”. It applies to the average increase in traffic across all roads, not to any individual road.

156th Avenue is the only access to the city central area and Woodinville Duvall Rd. Traffic on this road apparently increased 16% due to the opening of the COSTCO store. The number of homes in the Wellington area will increase by more than 30% under the two proposed rezoning actions and by more than 50% if all the large landowners, who have indicated a desire to cash in on a rezoning, are successful. An assumption of a 2.5% growth rate seems irrational.

The traffic specialist went on to say that he had no plans for addressing the existing problems which he acknowledged already exist on 156th Avenue and feeder streets, primarily 195th St., prior to the Wood Trails development.
It is apparent from this issue as well as a host of others that surfaced in these meetings, that the city Planning Department takes a very narrow view of their responsibility to the city and its citizens. Specifically, they appear to lean toward an attitude of Review and Approve developers' plans. They do not look for the costs to the city's infrastructure or the future consequences of developer's activities.

With the current overload of the city road project budget and the shortfall of developer impact fees, they are asking the city to approve a project with very little merit, without in any way quantifying the expected costs to the city. Further, the city Planning Director stated that she would not estimate the potential long term impact of the Wood Trails project on growth in the Wellington area. This appears to be ignoring rather than planning.

The Woodinville Planning Department together with the developer are asking the city to accept undefined and open-ended costs to the city transportation budget. This is not just short-sighted. It is irresponsible and unacceptable. Added to the other significant issues associated with these proposed developments, no rezoning should be approved until the traffic plan and budget are capable of handling the rational expectation of long term growth.
