Project Name/Description: Conditional use permit to establish a sports club/sports and recreation instruction within the Industrial zone.

Thank you for your application submittal. This letter is your official notice that your application submitted on July 13, 2011, is considered:

- Complete On: July 14, 2011
- Incomplete

Other Permits Required: The following additional permits will be required for this project. This project is not vested to the requirements of these permits until a separate complete application is submitted: Building Permit. The building permit has been submitted, but is not under review until the plan review payment is received. You can submit this at anytime; if review begins prior to approval of the conditional use permit, it is at your risk of paying a second plan review fee if the CUP review requires significant revisions to the building plans.

Complete Applications. Processing and review of a permit application may begin when it is deemed complete. A COMPLETE APPLICATION IS NOT AN APPROVED APPLICATION. A permit application is complete when it meets the submission requirements outlined in the submittal checklist. The City's determination of completeness does not preclude the City from requesting revisions, additional information or studies if new information is required, corrections are needed, or where there are substantial changes in the proposed action.

Incomplete Applications. An incomplete application will not be processed. The Applicant has 90 calendar days to submit all the required information to receive a notice of complete application. If the required information is not submitted within the 90 calendar day period, the application will be considered lapsed for failure to submit the necessary information in a timely manner and the file will be closed.

If you have questions regarding the City's permit review process, please do not hesitate to call the City at (425) 489-2754. Our office hours are 7:30 a.m. – 5:00 p.m., Monday through Thursday and 7:30 a.m. – 4:00 p.m. on Fridays.
